On December 13, 2022, Icade Promotion and SOGEPROM signed the off-plan sale of 13,200 sq.m of office and retail space in the heart of Lyon's Part-Dieu district to Union Investment (acting on behalf of UnilInstitutional European Real Estate).

Formerly an RTE regional headquarters, the building will undergo a major overhaul to the highest technical and environmental standards which will include a timber-framed extension.

Designed by architectural firm Hérault Arnod Architectures, the building will have a leasable floor area of close to 13,200 sq.m over eight floors.

This office project will also include:

- a ground floor with shops, a lobby and amenities (including a business centre with a co-working space);
- a 600-sq.m in-ground garden in a space currently used for underground parking;
- extensive outdoor spaces, including accessible rooftop green space, terraces on all floors and a private garden

A **model of low-carbon construction**, the project also illustrates the expertise of Icade Promotion and SOGEPROM in large-scale renovations and extensions. By building on the existing asset and extensively using renewable bio-based materials, the building will be able to cut its carbon footprint in half and comply with the EU Taxonomy. The project also aims to obtain the best environmental certifications and labels: BBCA with an Efficient rating, HQE with an Excellent rating, Ready to OZMOSE, Wired Score Silver.

The project is scheduled for completion in Q1 2025.

*“Icade Promotion, which already has a strong presence in Greater Lyon’s office market, has further proven its expertise in low-carbon construction, as well as its ability to diversify and adapt to the market’s evolving needs. This deal also illustrates Icade Promotion’s continued strong sales performance in the office segment and the buoyancy of the Lyon market, especially in certain specific areas in the city such as Part-Dieu.” Emmanuel Desmaizières, CEO of Icade Promotion.*

*“This transaction demonstrates SOGEPROM’s expertise in refurbishing assets. It is an eco-friendly project that prioritises the reuse of building materials and the use of renewable bio-based materials. It shows our commitment as a responsible developer and reaffirms our “Pacte 3B” strategy—Low Carbon, Biodiversity et Wellbeing. It illustrates our ambition in this Lyon metropole.” Béatrice Lièvre-Théry, CEO of SOGEPROM.*
