Several financial and non-financial rating agencies have acknowledged the quality of Icade's CSR policy, as well as its transparent financial reporting.

### 5<sup>th</sup> place in the GRESB ranking

Like last year, Icade is classified as a "Green star", the highest category, and takes 5<sup>th</sup> place among the 15 European companies from the "diversified assets" category. The company has significantly improved its score, from 62/100 in 2015 to 76/100 in 2016. Its property development business, which was assessed for the first time, ranked 13<sup>th</sup> out of 315 companies from around the world. The Global Real Estate Sustainability Benchmark (GRESB) is an international organisation specialising in the assessment of CSR policies implemented by real estate companies.

### Two Gold Awards received from EPRA

Icade's reporting quality was also rewarded with a "Gold Sustainability Award" from EPRA. EPRA (European Public Real Estate Association) issues guidelines and awards prizes to real estate companies based on the quality of their environmental reporting. Within the FTSE EPRA/NAREIT Developed Europe index, which consists of 98 companies, Icade was one of the 25 companies that received a "Gold" award in 2016 (vs. 21 in 2015).

Furthermore, Icade once again won the highest honour with a Gold Award from EPRA in the financial category for the quality and transparency of its reporting.

According to Olivier Wigniolle, Icade's CEO, Innovation and CSR are key drivers of success: "The early successes of Icade's strategic plan are based on a firm commitment to innovation and CSR from all employees. Our ambitious goals contribute not only to the excellence and performance of Icade, but also to that of all its stakeholders and all parties involved in building smart cities."
